Diploma - Computer Engineering - ***Percentage - 71.31%*** *Parbhani, Maharashtra*

COURSEWORK / SKILLS

- DSA
- Oops Concepts
- System Design
- Software Engineering
- Operating Systems
- Computer Networks
- Cloud Computing
- DBMS

PROJECTS

LetsEat ⬈ | React.js, expres.js, TailwindCSS, Shadcn/ui, MongoDB, OAuth, Stripe, IDE - VS Code **2024**

- Built a user-friendly platform for users to create logins and place orders at restaurants in their city.
- Users can search for restaurants also can utilise filters as per need.
- Enhanced user experience by allowing users to update their details and restaurant information.
- Implemented secure Stripe payments for seamless checkout process.

Budget App ⬈ | React.js, React Router, Context API **2023**

- Developed a responsive budget application using React and React Router to help users effectively manage their finances.
- Implemented local storage functionality to store and persist user data, ensuring that budget information is retained even after closing the application.
- Utilized React state management to dynamically update and display budget calculations, providing users with real-time insights into their financial status.
- Integrated React Router for seamless navigation between different sections of the application, enhancing the user experience.

YelpCamp ⬈ | NodeJS, ExpressJS, MongoDB, PassportJS **2022**

- Developed and implemented a full-stack web application called YelpCamp with server-side rendering for optimal performance and user experience
- Integrated Passport.js for robust user authentication and authorization, allowing users to securely create and manage their accounts to create, edit, and delete multiple campgrounds.
- Implemented comprehensive functionality for users to review campgrounds, enhancing the interactive features of the application and promoting user engagement and feedback.
- Utilized MongoDB as the database to store and manage campground and user data, ensuring efficient retrieval and manipulation of information for seamless user experiences and data integrity.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL
Technologies/Frameworks: HTML5, CSS3, MongoDB, PostgreSQL, Amazon Web Services (AWS), Express, React, Redux Toolkit, NodeJS, TailwindCSS
Developer Tools: VS Code, IntelliJ IDEA, Postman, Git, GitHub, Docker

CERTIFICATIONS

- Namaste React Course - Akshay Saini
- The Web Developer Bootcamp 2022 - Udemy
- Responsive Web Design - freeCodeCamp
- Java (basic) certificate - HackerRank
